UZBEK CRAIN DELIVERIES LAG -- Pravda Vostoka. No 150, 30 Jul 48

According to the schedule established by the Soviet of Ministers Uzbek SSR and the Central Committee of the KP(b) Uzbekistan, the harvesting and threshing of grains should be terminated by 5 August. Not a single oblast in the Republic is meeting the schedule.

By 25 July, the harvest plan was fulfilled only 61.7 percent by the kulkhozes of the Republic, and the threshing plan, by 45.8 percent. Leading grain-producing oblasts completed their plans as follows: Tashkent Oblast, 52.6 of the harvest plan and 38.7 percent of the threshing plan; Samarkand Oblast, 55 percent of the harvest plan and 38.7 percent of the threshing plan; and Kabka-Dartya Oblast, 77 percent of the harvest plan and 66.9 percent of the threshing plan. Only the kolkhozes in Fergana Oblast fulfilled their harvest plan, but their threehing plan was fulfilled only 27.9 percent. Uzbek grain deliveries to the State, as of the same date, amount in all to 26 percent of the plan: including Tashkent Oblast, 19 percent; Samarkand Oblast, 26.1 percent; Kashka-Dar'ya Oblast, 36.2 percent. Grain sovkhozes have fulfilled their grain-delivery plan only 35.4 percent.

The above figures show that the harvesting and threshing of grain and its delivery to the State are proceeding altogether unsatisfactorily in the Uzbek SSR.
